### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Charles Wieland on 26 April 2005.

The application has been amended as follows:

In claim 1, line 11, after the term "conic coefficient" add the phrase,  
--greater than 0,--

### ***Allowable Subject Matter***

2. Claims 1 and 3-5 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest, "wherein the refractive surface has a low-order aspheric profile  $z$  satisfying the following Equation:  $z(r) = cr^2/1 + \text{SQRT}(1 - (1+k)c^2r^2 + Ar^4 + Br^6 + Cr^8 + Dr^{10})$ , wherein  $c$  is a curvature of the refractive surface,  $k$  is a conic coefficient greater than 0" as set forth in the claimed combination. Claims 3-5 are also allowable based upon their dependence on claim 1.

The prior art of record, Morris et al teaches a hybrid lens comprising a refractive surface and a diffractive surface, the diffractive surface designed by a sag satisfying the Equation for sag. However, the prior art of record does not teach that the refractive

surface has a low-order aspheric profile  $z$  satisfying the following Equation:  $z(r) = \frac{cr^2}{1 + \sqrt{1 - (1+k)c^2r^2 + Ar^4 + Br^6 + Cr^8 + Dr^{10}}}$ , wherein  $c$  is a curvature of the refractive surface,  $k$  is a conic coefficient greater than 0 and there is no teaching or motivation to modify this difference as derived.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alessandro V. Amari whose telephone number is (571) 272-2306. The examiner can normally be reached on Monday-Friday 8:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew Dunn can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
